

2005/2006 Annual Campaign
Employment – “It’s Working”

The goal was exceeded with \$105,600 being raised for this initiative.

Youth is our most valuable asset! Helping youth to help themselves ensures a brighter world for everyone.

For its 2005/2006 annual campaign, the Simcoe Community Services Foundation will endeavour to raise \$100,000 to assist youth with their employment goals.

Your support will give youth with intellectual disabilities the opportunity to pursue community-based employment. Monies raised from this campaign will provide the resources for employment support and job coaching to youth with intellectual disabilities who want summer or permanent employment.
