

2006/2007 Annual Campaign

“I Too Have A Dream”

The “I Too Have A Dream” Campaign will focus on helping individuals with intellectual disabilities find meaningful roles in our communities. We will help them develop connections which will lead to leisure and volunteer opportunities – joining a club, belonging to a choir, or volunteering at a local seniors centre. Ultimately we hope that they will become a part of the fabric of our society. While most individual’s receive a small monthly pension once they bills are paid they have approximately \$96.00 left for discretionary funds. This means that involvement in normal community activities such as going to a movie, joining a club or having a membership to a fitness centre is almost impossible without support. We are looking to raise \$150,000 in funds to provide support to a potential 342 adults in our care.
